12 November 1958
SR/3/58 Memo No. 209

MEMORANDUM FOR: SR/COP/PP

SUBJECT : Purchase of New Recording Equipment for Use Under
Project AERODYNAMIC

1. Your concurrence is requested for the purchase of new recording equipment for use under Project AERODYNAMIC.
2. For the past two years the Magnecord recording equipment (now over four years old) being used by the Project has been a constant source of irritation, causing the loss of countless man hours and periodical repair expenditures.

3. After consultation with [] of Communications
Support: [] and [] of SR/Logistics; and []
[], former case officer on Project AERODYNAMIC, it would appear
most practical to have the old equipment sold or traded in and replaced
with new equipment. Both Commo and Logistics recommend the purchase of
Ampex equipment. A portable, semi-professional, Ampex set will cost in
the vicinity of \$500. Although this latest type of recorder is not
equipped with a mixing panel, [] was of the opinion that any retailer
could rig up a mixing panel for an extra charge of about \$150 - \$200.
